COMMERCIAL KITCHEN EXHAUST SYSTEMS REQUIRED CLEANING SCHEDULE

IN ACCORDANCE WITH N.J.A.C. 5:70-3, 609.3

“Commercial kitchen exhaust systems shall be cleaned to remove deposits of residue and grease in the system at intervals specified in the cleaning schedule required to be submitted in accordance with Section 609.3. Thorough cleaning of ducts, hoods and fans shall require scraping, brushing or other positive cleaning methods.”

“Where a cleaning schedule is not on file, the fire official shall require a schedule to be submitted, indicating the method of cleaning and the time intervals between cleanings.”
